

Art.no. **3130**

Electric glass cutter, mobile, for a safe and versatile cutting of the windshield glass of end-of-life vehicles.

- Electric mechanism with special high speed drill machine and diamond milling cutter;
- Conveyor in aluminium for the evacuation of the generated glass dust;
- Vacuum cleaner with stainless steel container, power 2000 W, collection capacity 80 l.

Art.no. **3132 + 3025**

new

Evacuation unit for shock absorbers, composed of a drill machine and an air-operated suction unit.

The drill gun allows to drill through the shock absorbers and the suction unit simultaneously sucks the hydro steer oil into a container of 24 l capacity.

Art. no.	Diameter	Drill stroke	Max. diameter shock absorber
3132	15 mm	30 mm	60 mm

Art. no.	Compressed air supply	Max vacuum	Capacity collection container	Weight	Dimensions (LxWxH) (mm)
3025	7 - 10 bar	0.8 bar	24 l	11 kg	390x360x940

new

Art.no. **3136P**

Mobile, pneumo-hydraulic cutter unit with max. blades opening of 130 mm. Allows the cutting of vehicle catalyts, sheet material, aluminium profiles and copper cables with extreme speed and high safety.

This unit includes a trolley with 4 castors, a 5 l - oil container with 100:1 - pneumatic piston pump, pressure regulator with manometer, moisture separator and lubricator and a high pressure rubber hose. It permits the shear to reach a maximum pressure of 700 bar.

Art.no. **3136E**

Mobile, electro-hydraulic cutter unit with max. blades opening of 130 mm. Allows the cutting of vehicle catalyts, sheet material, aluminium profiles and copper cables with extreme speed and high safety.

This unit includes a trolley with 4 castors and an electric power supply unit with exchanger that permits the shear to reach a maximum pressure of 700 bar.

Art.no. **3136B**

Battery-powered cutter with max. blades opening of 130 mm. Allows the cutting of vehicle catalyts, sheet material, aluminium profiles and copper cables with extreme speed and high safety.

Characteristics:

- Double acting function prevents any possible jam;
- Hardened, re-grindable blades assure a safer working than with an abrasive cut-off machine;
- Compact, light, fast, reliable and usable in any position.
